

NECAE-CAP

THE ENERGY CONSERVATION FINANCING TOOLKIT

The NECA Energy Conservation and Performance Platform (E-CAP) removes the obstacles to the implementation of your energy retrofit projects by seamlessly integrating performance guarantees and flexible financing solutions into your sales process.

WHAT IS THE NECA ENERGY CONSERVATION AND PERFORMANCE (E-CAP) PLATFORM?

The NECA E-CAP Platform gives you turnkey access to best practice Insurance and Financing Solutions for your energy projects.

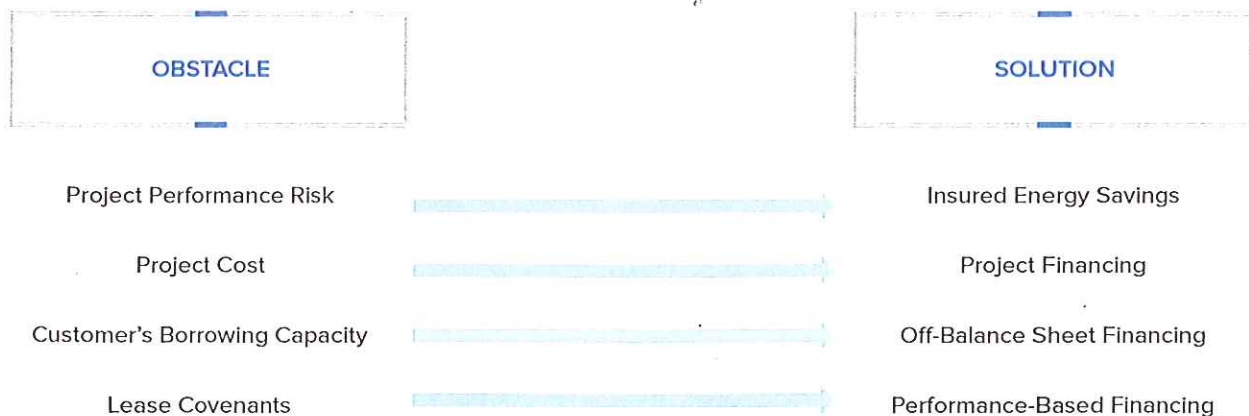

Through the NECA E-CAP Platform you will be able to provide Investment Grade Project Performance Guarantees and Flexible Project Financing to your clients using third-party insurance and project investors.

WITH E-CAP YOUR ENERGY RETROFIT CUSTOMERS

- + Don't Need To Borrow Or Invest Money
- + Don't Need To Engage A Third Party Engineer
- + Don't Need To Worry If A Project Will Perform
- + Will Increase The Value Of Their Property

THE E-CAP SOLUTIONS

HOW DOES E-CAP WORK?

APPLY DIRECTLY FOR INSURANCE

You can use the E-CAP Platform to apply directly for project performance insurance to satisfy the needs of your existing project's beneficiary and financiers.

DEVELOP A NEW PROJECT

The NECA E-CAP Platform's project development work-flow streamlines the development process to align your project sales, engineering, underwriting, and financing efforts to maximize your chance of a successful transaction.

APPLY DIRECTLY FOR FINANCING

You can use the E-CAP Platform to apply directly for conventional, performance-based, and PACE Financing (where eligible) for your existing projects.

STEP 1
